Re: Tashbar Primary School, Upper Park Road, Salford M7 4HL

Regarding your policy guidance comments:

The tree removal and retention / protection plan in accordance with TD4 and BS 5837:2012 requirements are clearly described in our Site Tree Appraisal Report; *RTS/30052021/003 Rev 003* dated 25/03/2022 at paragraphs; 3.5, 5.1, 5.1.1, 5.2 and depicted on the Tree Protection Plan *RTS/30052021/TPP 003*. Most of the tree protective fencing requirements are to utilize the existing security fence, which I was informed is to be retained.

In order to facilitate the development, limited pruning to some of the trees and only 1 tree on the site (T21) will require removal. The existing soft landscaped areas, therefore, will effectively remain unchanged. However, should a revised landscape design for the site be required, I would recommend that a landscape architect be consulted.

Yours Faithfully,

Mr W. J. Rowbottom.
